

# Expanding geography, extending the fleet

**77%**

recovery of traffic level against 2019

**138%**

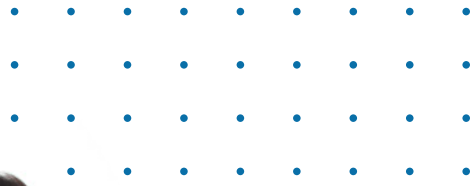

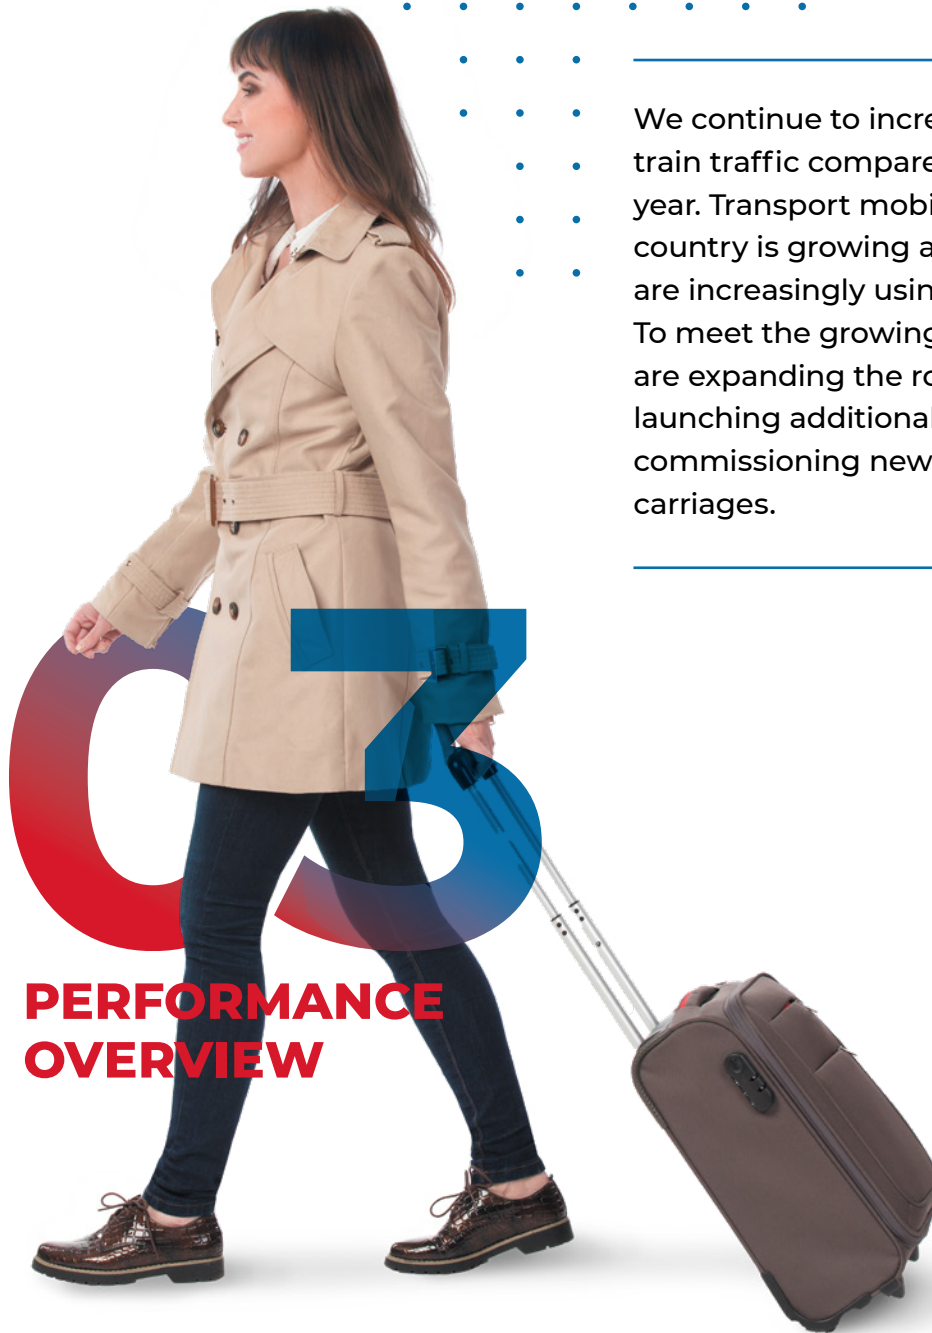

growth in the number of passengers serviced against 2020

**60.8%**

growth in the passenger traffic by double-deckers

**90**

**double-decker carriages** commissioned in 2021

---

We continue to increase the volume of train traffic compared to the previous year. Transport mobility within the country is growing and passengers are increasingly using the railway. To meet the growing demand, we are expanding the route network, launching additional trains and commissioning new double-decker carriages.

---

## PERFORMANCE OVERVIEW

**Number of double-decker routes**

**12**

2019

**14**

2020

**19**
